Education

Sarvajanik College of Engineering and Technology

B. Tech in Computational Engineering - CGPA: 8.2 / 10

2023 - Present

Surat, Gujarat

Achievements

Finalist — Hacksagon 2026 National hackathon, **ABV IIITM Gwalior** Top team among **500+** participants; built an AI/ML intelligent automation solution

Experience

ZipNom (Software Developer Intern)

Feb 2026 – Apr 2026

- Architected **10+ REST APIs** serving **50+ users/customers** user management, subscriptions, analytics, and sales tracking using Node.js and Express.js
- Implemented **RBAC** for **3 user roles (Patient, Doctor, Admin)** with **role aware authentication** and cross portal login with automatic redirection to appropriate Dashboard.
- Built **AWS MediaConvert** video compression workflows for **2+ video content categories**, integrated **Zoho CRM** automation, and deployed services on **AWS EC2** with PM2
- Improved **Medny AI** stability by resolving 10+ production issues, fixing authentication vulnerabilities and optimizing image loading performance

Open-Source Contributions

PictoPy – Open-Source Contributor | 3 Merged PRs

- Fixed missing username length validation across onboarding and settings page, preventing long usernames from disrupting navbar layout and improving the UI consistency – [\[PR #1286\]](#)
- Added the Jest component level test case for the username validation changes, providing regression coverage – [\[PR #1303\]](#)
- Improved the project documentation and setup guidance through README contributions – [\[PR #1281\]](#)

Technical Skills

Languages: C++, Python, JavaScript, TypeScript

Frameworks & Libraries: React.js, Node.js, Express.js, Next.js, TailwindCSS, Socket.IO, JWT, Zustand

Databases & Cloud: MongoDB, PostgreSQL, Supabase, Prisma ORM, AWS, S3/SES/EC2/MediaConvert.

Tools & Integrations: Git, Postman, Bun, Turborepo, Razorpay, Cashfree, Zoho CRM, Cloudinary, WebRTC.

Projects

HopCare

[Live](#) [GitHub](#)

Node.js, Express.js, React.js, MongoDB, JWT, Zustand

- Built a full-stack healthcare management platform with **JWT** authentication and **role-based access control (RBAC)**, supporting separate **doctor/patient dashboards** with secure appointment, prescription, profile, and review management
- Engineered appointment scheduling with **conflict prevention**, availability management, and validate state transitions, designed scalable **REST APIs** using the **MVC** architecture with **MongoDB** and **Zustand** for predictable global state management

Meetly

[Live](#) [GitHub](#)

WebRTC, Socket.IO, React.js, Node.js, Express.js, Bootstrap

- Built a full-stack video conferencing platform with **WebRTC** and **Socket.IO** for the real time video/audio calling, screen sharing, live chat, participant synchronization, and **guest access without registration**.
- Implemented **JWT authentication**, protected routes, meeting history, and **Zustand** based session state, with an MVC backend architecture and **middleware** level authentication/input validation for secure and maintainable **APIs**
